

Sample graduate program disclosure statement

CAMPEP Graduate Standard 2.11 states "A program must publicly describe the program and the achievements of its graduates and students, preferably through a publicly accessible web site. This information must be updated no less often than annually and must include, for each degree program (MS and/or PhD), the number of: applicants to the program, students offered admission, students matriculated, and graduates. Where possible, information on the destinations of graduates must also be provided, i.e., residencies, industry positions, etc."

The following is an example of a table providing such information:
