Challenges and responses

- Finding reviewers -> assigning reviewers in training to most initial and 5 year reviews, several trainees have graduated to become 2nd reviewers
- Review process in general-> web based self study submission and review process
- Surge in new therapy programs, need for MD reviewers-> I am asking you to ask if any MDs want to take part in the process
- Overdue reviews-> me working almost every day contacting reviewers, if I
 do not get a timely response I ask someone else (goal is to be have all
 programs to have assigned reviewers by the end of the year). CAMPEP has
 an agreement with 2 experienced reviewers to be paid to work on the
 backlog.

Things I wish I knew last November when I took this position:

- How many overdue reviews there were
- How much time would be spent on CAMPEP work
- How many e-mails and phone calls I would get from program directors, students, residents, etc.
