

**Bruce Libby, Ph.D.**

Bruce Libby received his Ph.D. in Nuclear Chemistry from the University of Maryland, College Park, MD in 1992. After completing a post-doctoral fellowship in the Department of Physics at Iowa State University, he joined the Radiation Oncology Department at Virginia Commonwealth University in Richmond Virginia in 1996, first as a research associate then as an assistant professor. He was an assistant professor in the Department of Radiation Oncology at the University of Pittsburgh Medical Center from 2001 to 2008.

In 2008, Dr. Libby joined the Radiation Oncology Department at the University of Virginia, where he serves as the director of the clinical physics residency program and the chief of clinical brachytherapy physics. He was promoted to associate professor in 2012. Dr. Libby is board certified by both the ABMP and the ABR in therapeutic radiological physics. He has published over 40 papers in peer-reviewed journals, close to 100 abstracts, and several book chapters. His main research interests are in the development of novel brachytherapy applicators and treatment techniques.

Dr. Libby serves on the board of directors of SDAMPP, is a member of several AAPM and ABR committees, and is a past president of the Mid-Atlantic chapter of the AAPM.
